SUMMARY

Frontend Developer with over 4 years of experience designing, developing and maintaining modern, responsive web applications using React, Next.js and JavaScript. Experienced in building scalable business websites, hotel booking platforms, e-commerce applications and CMS-driven solutions from concept to deployment.

Currently serving as an IT/Web Manager, where I oversee multiple company websites, manage SEO strategies, optimize website performance, and ensure reliable production deployments. Passionate about creating exceptional user experiences, solving complex technical problems, and building high-performance applications that deliver measurable business results.

EDUCATION

Michael Okpara University of Agriculture, Umudike

Bachelor of Science (B.Sc.) in Computer Science

2012 – 2017

EXPERIENCE

IT / Website Manager

2023 – Present
